Web Developer

Description
Hudson and Indus is seeking a skilled and motivated **Web Developer** to join our growing team. The ideal candidate will be responsible for designing, developing, and maintaining modern, responsive websites and web applications that align with our brand and business goals.

Responsibilities

- Develop and maintain websites using HTML, CSS, JavaScript, and relevant frameworks
- Collaborate with designers and project managers to implement website features
- Ensure website performance, security, and responsiveness across devices
- Debug, test, and optimize web applications
- Maintain clean, scalable, and well-documented code
- Stay updated with the latest web development trends and technologies

Qualifications

- Proven experience as a Web Developer or similar role
- Strong knowledge of front-end technologies (HTML, CSS, JavaScript)
- Experience with frameworks/libraries such as React, Angular, or Vue (preferred)
- Familiarity with back-end technologies (PHP, Node.js, or similar) is a plus
- Understanding of SEO principles and web accessibility
- Strong problem-solving and communication skills

Education

- Bachelor's degree in Computer Science, Information Technology, Web Development, or a related field (preferred but not mandatory)
- Relevant certifications in web development or programming are an added advantage

Experience

- Minimum 1–3 years of experience as a Web Developer or in a similar role
- Hands-on experience in developing and maintaining websites and web applications
- Experience working with front-end and/or back-end technologies
- Portfolio or examples of previous work will be highly preferred

Skills

- Proficiency in HTML, CSS, JavaScript
- Experience with frameworks/libraries such as React, Angular, or Vue.js
- Knowledge of back-end technologies like PHP, Node.js, or Python (plus point)
